

Website Improvements

There has been significant functional improvement to various areas of the department website including, but not limited to: www.psych.ucla.edu, faculty.psych.ucla.edu, and directory.psych.ucla.edu. The most notable of these changes are the improvements to the backend data input and frontend display of faculty webpages. During the summer Dave also attended the UCLA Mobile Web Framework (MWF) conference. As a result he submitted the following test mobile website:

<http://dev.psych.ucla.edu/mobile/>

Finally, we have our first production (i.e. "live") website running on the new IT Services pilot web hosting service. This project required planning and collaboration with Professor Monti, IT Services, and IAMUCLA (Shibboleth authentication services). The project would not have been successful without input from the UCLA Plone Users Group. The website is for Professor Martin Monti and can be seen at this URL: <http://montilab.psych.ucla.edu>

Other Departmental or Special Events and assignments

- Coordinated Staff Appreciation Day
- Cathy McCann was elected to Staff Assembly
- Our unit participated in the campus Summer Youth Program as supervisors for a youth worker
