Pre-Cognitive Science Requirements

Students may declare the Pre-Cognitive Science major once they have established a prep GPA by taking at least one prep course for a letter grade at UCLA and have an average prep GPA of 2.5 or higher.

All of the following Procedures and Requirements will be strictly enforced:

- A C or better is required in each preparation course. All courses must be taken for a letter grade.
- An overall grade-point average of 2.50 is required in the preparation courses.
- All of the preparation courses must be completed by the end of the summer quarter following the student’s third year.
- Repetition of any preparation course more than once results in automatic denial of admission to the major.
- Repetition of more than any two preparation courses results in automatic denial of admission to the major.

Students who fail to meet any of these preparation requirements will be changed from Pre-Cognitive Science to Undeclared.

Suggestions for preparation work: Students should take the Program in Computing courses.

*Recommended course.

**Must be declared Pre-Cognitive Science to enroll.

Effective Fall 2018
Cognitive Science Major Requirements

To declare major standing, students must first complete all of the preparation courses (all grades assigned) and meet all of the requirements listed on the front of this sheet. Students must declare the Cognitive Science major in the Psychology Advising Office in 2812 Life Sciences Building.

An overall grade point average of 2.00 (C) is required in the upper division major courses. The Core, Laboratory, and Elective courses must be taken for a letter grade.

### Three (3) Core Courses

Select three courses, one from each box:

- Psychology 115*
- Psychology 120A or 120B
- One course from: Psychology 124A-K

*Psych M117A & M117B & M117C will count in lieu of Psych 115 and two Cognitive Science Electives. Students will not receive any Cognitive Science elective credit unless all three classes have been completed. Petition the Undergraduate Advising Office upon completion of the series.

### One (1) Laboratory Course

Select one course:

- Psychology 111, 116, 121, 186A, 186B, 186C, 186D or Computer Science 161*

### Four (4) Elective Courses*

Select four courses from the following list:

- Anthropology 124Q, 136A, M150
- Communication 118, 119, 126, M127, 129
- Computer Science 111-CM186
- Ethnomusicology & Systematic Musicology 172A
- Linguistics 103-185B
- Math 110A-171
- Music Industry 103
- Neuroscience 102, M145, C177, 180, 181, 182
- Philosophy 124-137
- Statistics 100A, 100B, 100C, 101B, 101C

*Please verify your eligibility to enroll in these courses and confirm you have taken the necessary prerequisite courses. This information can be found in the Schedule of Classes.

**Prior approval by the Psychology Advising Office is required. If 191CH is used as an elective, it cannot be used towards the Fieldwork/Research requirement as well.

### Two (2) Fieldwork/Research Courses

Two quarters of fieldwork and/or research in cognitive science (Psych 195B and/or Psych 196B).

Fieldwork and research may only be taken on a P/NP basis. With prior approval of the Psych Advising Office, students can also use independent study (Psych 199 or 191CH) with a cognitive science professor toward this requirement.
